

**Dr. Vicky J. Sharpe**  
**President and Chief Executive Officer**  
**Sustainable Development Technology Canada (SDTC)**

Vicky Sharpe is President and CEO of Sustainable Development Technology Canada (SDTC), a Government of Canada initiative whose mission is to help develop and commercialize clean technologies that will strengthen economic and environmental performance in Canada.

As founding CEO, Dr. Sharpe has increased the funding pool from \$100M to over \$1B and mobilized private sector capital resulting in more than \$2.9B of investments for projects and commercialization activities. With over 25 years of experience in the energy industry, Dr. Sharpe has successfully integrated sustainable development into business practices.

As part of her leadership in building a cleantech infrastructure, Dr. Sharpe is a founding member of the Board of Directors of the Alberta Enterprise Corporation and the Steering Committee of the UNEP SEF Alliance. Dr. Sharpe is helping to shape the Canadian cleantech landscape through the provision of strategic advice including her role on the Ontario Premier's Climate Change Advisory Panel. She is also a Director for the International Institute for Sustainable Development (IISD), Carbon Management Canada Inc. (CMC), and the Biowaste to Energy for Canada integrated initiative Corp. (BECii).

Dr. Sharpe has served on numerous committees, in particular as an international advisor on sustainability issues; has represented the Canadian energy sector at the Asia-Pacific Economic Cooperation (APEC) Business Forum; and has chaired both the National Advisory Board on Energy, Science and Technology, and the Board of Directors of Clean Air Canada Inc.
